SUMMARY

Full Stack Developer with experience in building scalable web applications, RESTful APIs, and end-to-end solutions. Strong background in modern frontend and backend development, cloud deployment, and databases. Focused on clean, efficient code and delivering reliable, user-centric products. Passionate about learning, problem-solving, and contributing to impactful projects.

TECHNICAL SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, Python, C, Node.js, React.js, Next.js, Express.js, Django, FastAPI, React Native

Database: MongoDB, PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Vercel, AWS, Render, Robo 3T

APIs & Version Control: REST APIs, FastAPI-based APIs, Git, Git-based CI/CD, GraphQL

Cloud & Deployment: AWS (EC2, S3, RDS, IAM), Vercel, Render, Docker containers, Virtual Machines

AI & Machine Learning: Deep Learning, Neural Networks (CNN, RNN), Model Evaluation, TensorFlow, RAG

EXPERIENCE

Plutobyte Technologies Pvt. Ltd.

Jan 2023 – Present

Role – Full Stack Developer (Remote)

Meerut, India

- Collaborated closely with the senior developer to review code, conduct testing, and optimize overall system performance.
- Building scalable APIs and backend services using FastAPI, Node.js, Django, Express.js with MongoDB, PostgreSQL, and MySQL.

Plutobyte Technologies Pvt. Ltd.

July 2022 – Dec 2022

Intern - Full Stack Developer (Remote)

Meerut, India

- Developed responsive web applications using Next.js, Node.js, FastAPI, and Django.
- Built scalable APIs and backend services using Express.js with MongoDB, PostgreSQL, and MySQL.
- Deployed containerized applications using Docker across Vercel, AWS, and Render with Git-based CI/CD.

PROJECTS

Emotion Detection System using Facial Recognition

Jan 2025 – May 2025

Next.js, FastAPI, Python, TensorFlow

Dehradun, India

- Built a real-time emotion detection system that analyzes live webcam input using a custom-trained CNN model.
- Trained the model on the FER-2013 dataset to classify emotions such as Happy, Sad, Angry, Neutral, and more.
- Developed a responsive and modern UI using Next.js 14, Tailwind CSS, and Framer Motion, with smooth real-time emotion updates and history logging. Implemented efficient backend processing with FastAPI, OpenCV, and TensorFlow
- **Live Demo:** <https://emotion-detection-master.vercel.app/>

HirexFeed – AI-Powered Job Platform

Nov 2025 – Present

PostgreSQL, Next.js, Node.js/Express, Python, RAG, AWS (EC2, RDS, S3, Amplify)

Remote

- Built a full-stack AI-powered job platform connecting candidates with employers, featuring smart job matching, resume parsing, and personalized job feed recommendations.
- Designed and deployed a scalable backend using Node.js/Express with PostgreSQL (AWS RDS), storing user data and job listings with optimized query performance.
- Managed complete AWS deployment: EC2 for compute, S3 for media/file storage, RDS for database, and Amplify for frontend hosting with CI/CD pipelines.
- **Live Project:** <https://hirexfeed.com>

RitualBuddy – Ritual Booking App

Sep 2025 - Present

Next.js, FastAPI, Python

Remote

- Developed a full-stack wellness app for tracking daily rituals, habits, and mindfulness routines, with personalized scheduling and progress insights.
- Built a responsive Next.js frontend with dynamic dashboards, ritual streak tracking, and notification flows for improved user engagement.
- Engineered a high-performance FastAPI backend with RESTful endpoints, user authentication (JWT), and PostgreSQL-backed data persistence.
- **Live Project:** <https://ritualbuddy.in>

HerEmpire – Headless Shopify E-Commerce Store

Dec 2025 - Present

Next.js, GraphQL, Shopify Storefront API

Canada (Remote)

- Built a fully decoupled headless Shopify storefront using Next.js with server-side rendering (SSR), providing a fast and SEO-optimized e-commerce experience.
- Integrated Shopify Storefront API via GraphQL to fetch product listings, collections, cart management, and checkout flows, enabling real-time inventory and pricing.
- Delivered a performant, mobile-responsive storefront with custom UI components, dynamic filtering, and optimized page load speeds for improved conversion rates.
- **Live Project:** <https://herempire.ca>

Plutobyte.io – Company Website & Job Application Platform

Feb 2025 – May 2025

Next.js, React.js, Node.js, Express.js, UploadThing, Nodemailer, Framer Motion

Dehradun, India

- Developed a full-stack company website with an integrated job application system, allowing candidates to submit applications along with file uploads.
- Built a responsive and interactive frontend using Next.js and React.js, enhanced with Framer Motion animations for smooth UI transitions and improved user experience.
- Implemented backend APIs using Node.js and Express.js to handle form submissions, validations, and business logic.
- **Live Project:** <https://plutobyte.io/>

EDUCATION

University of Petroleum and Energy Studies

Master of Computer Applications (AIML)

July 2023 – May 2025

Dehradun, India

Vidya Institute of Creative Teaching

Bachelor of Computer Applications

July 2019 – May 2022

Meerut, India

CERTIFICATIONS

Mastering Data Structures & Algorithms using C and C++

– Udemy | May 2025
